

49 Educational Programs Successfully Accredited

Currently, Dulary University offers 103 bachelor's degree programs, 61 master's degree programs, and 9 doctoral programs, totaling 173 educational programs. Based on the agreement №78/2 - CA, signed with the «Independent Agency for Accreditation and Rating» (IAAR) for conducting specialized accreditation, an external audit was conducted at our university starting on January 22, 2024. Prior to this, in December and January of the current academic year, the self-assessment reports for the educational programs successfully underwent examination by both internal and external experts.

Recently, by decision of the Accreditation Council, protocol №82 dated March 29, 2024, certificates were issued confirming the full accreditation of 49 educational programs at our university. Of these, 44 educational programs have been accredited for a period of 5 years, while 5 programs, which have an incomplete student body or no graduates and were presented for accreditation for the first time, have been accredited for 3 years.

We congratulate the university team on these achievements in the educational process! A big thank you to the teaching staff, department and faculty teams, employees, and university leadership who made significant contributions to the national accreditation process.
