

Dulaty University is an educational institution ranked with "3 stars"!

QS Stars is the founder of one of the most prestigious global rankings of higher education institutions, the Quacquarelli Symonds (QS) World University Rankings (WUR). QS Stars is aimed at all interested parties: potential students, partners, experts, scholars, and employers, providing detailed information about universities and determining their rankings. According to the QS Stars methodology, universities are assessed based on academic and scientific achievements, innovation, and 100 different indicators such as internationalization, university infrastructure, graduate employment, inclusivity, and environmental impact.

After evaluation, universities are assigned an overall star rating, which ranges from 0 to 5 stars, depending on the number of points earned in the assessment.

Dulaty University recently participated for the first time in the QS Stars rating and achieved high results in the initial stage. On March 18, 2024, our university received a QS Stars rating of "3 stars" in the overall ranking. This includes the following categories: Education – "4 stars", Employability – "4 stars", Research – "3 stars", Internationalization – "3 stars", Infrastructure – "3 stars", Innovation – "1 star", Inclusivity – "2 stars", and in the specialized field of Chemistry – "3 stars".
