

## **Dulaty University is an educational institution ranked with "3 stars"!**

QS Stars is the university rating system developed by Quacquarelli Symonds (QS), the creator of one of the world's most prestigious higher education rankings, the QS World University Rankings (QS WUR). QS Stars provides a comprehensive assessment of universities aimed at delivering full information to all stakeholders: prospective students, partners, experts, researchers, and employers. According to the QS Stars methodology, universities are evaluated across more than 100 indicators, including academic and research performance, innovation, internationalization, campus facilities, graduate employability, inclusivity, and environmental impact. Based on the evaluation results, universities are awarded an overall star rating ranging from 0 to 5 stars.

The QS Stars university rating system was launched in 2009 as a means to assess universities in a broader format, covering all areas of their activity.

Dulaty University participated in QS Stars for the first time and achieved a high result on its first attempt. On March 18, 2024, our university received an overall QS Stars "3 Stars" rating. The ratings by category are as follows: Teaching – 4 stars; Employability – 4 stars; Research – 3 stars; Internationalization – 3 stars; Facilities – 3 stars; Innovation – 1 star; Inclusiveness – 2 stars; and Chemistry (selected by specialization criteria) – 3 stars.

The university leadership congratulates the faculty, students, administrative staff, and all employees on this new achievement!

These results demonstrate Dulaty University's high international standing, commitment to improving quality across all areas of university activity, and its aspiration to contribute to the development of the Zhambyl region as well as the broader economy and society.

M. Kh. Dulaty Taraz University participated in the QS Stars rating for the first time and received an overall "3 Stars" status. QS Stars ratings are valid for three years.

QS Stars is an initiative of Quacquarelli Symonds, the company behind the QS World University Rankings (QS WUR), one of the world's most prestigious university rankings. The project aims to provide a comprehensive evaluation of universities and offer complete, transparent information to all stakeholders – applicants, partners, employers, researchers, and experts.

According to the QS Stars methodology, universities are evaluated across 11 key categories and more than 100 indicators.

**QS Stars 2024 Ratings of University Achievements:**

Teaching: 4 stars

Employability: 4 stars

Research: 3 stars

Internationalization: 3 stars

Facilities: 3 stars

Innovation: 1 star

Inclusiveness: 2 stars

Chemistry (specialization criterion): 3 stars

Based on the evaluation results, universities are awarded an overall star rating from 0 to 5 stars.

## Rated for Excellence

# Taraz University named after M.Kh. Dulaty (Dulaty University)

QS has, through rigorous and independent data collection and analysis of performance metrics as set out in the QS Stars™ methodology, rated Taraz University named after M.Kh.Dulaty(Dulaty University) as a 3 Stars institution.

TEACHING

CHEMISTRY

The QS Stars™ rating system is operated by the QS Intelligence Unit, the independent compiler of the QS World University Rankings® since 2004. The system evaluates universities across a wide range of important performance indicators as set against pre-established international standards. By covering a broader range of criteria than any world ranking exercise, QS Stars™ shines a light on both the excellence and the diversity of the rated institution.

EMPLOYABILITY

INNOVATION

INTERNATIONALISATION

INCLUSIVENESS
